

# Bauer Wins!

## **Bauer declared 2022 All-American Selections (AAS) Edible Vegetable Winner!**

It was an exciting win for Vitalis this year, as our new emerald green oakleaf mini head - **Bauer** - was announced as a National All-American Selections (AAS) winner. Solely focused on never-before-sold varieties, AAS is a non-profit organization founded to help home gardeners identify improved varieties. With a network of trial grounds across North America, AAS only awards top performers with the National AAS Winner designation.

AAS judges noted that Bauer is ideal for both home garden and professional growers, and that it grows well almost anywhere. **Bauer** further distinguishes itself with its dark color, compact habit, harvest flexibility, disease resistance, and thick, flavorful, crunchy leaves.
